

4 Courses

Introduction to Concurrent Programming with GPUs

Introduction to Parallel Programming with CUDA

CUDA at Scale for the Enterprise

CUDA Advanced Libraries

JOHNS HOPKINS UNIVERSITY

28-Mar-2026

Chancellor T. Pascale, M.S.E.

AJIN A

has successfully completed the online Specialization

GPU Programming

This specialization is intended for data scientists and software developers to create software that uses commonly available hardware. Students will be introduced to CUDA and libraries that allow for performing numerous computations in parallel and rapidly. Applications for these skills are machine learning, image/audio signal processing, and data processing.

This certificate attests to the learner's completion of an online program delivered via Coursera. It does not constitute formal enrollment at any university or entity and does not itself grant academic credit, grades, or a degree. Institutions or organizations may, at their discretion, recognize this learning toward their own programs or credentials.
